

Fund Overview

The WisdomTree U.S. Quality Dividend Growth Fund seeks to track the price and yield performance, before fees and expenses, of the WisdomTree U.S. Quality Dividend Growth Index.

Why DGRW?

- Gain access to the current investment landscape of U.S. large cap dividend growing companies by applying quality and growth screens
- Use as a complement to high yielding dividend strategies or as a replacement for large cap quality strategies

Performance of less than one year is cumulative. You cannot invest directly in an index.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at [wisdomtree.com/investments](http://wisdomtree.com/investments).

WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Total Returns are calculated using the daily 4:00pm EST net asset value (NAV). Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times.
