

2019 Preliminary Estimated Capital Gains Distributions

Based on NAV and shares outstanding as of 11/12/2019

Please note these year-end preliminary estimates were based upon the best information available. **The information presented here isn't final; these are only preliminary estimates and are subject to significant change as we finalize our calculations.**

All estimates are subject to significant change based on a number of factors, including changes in the number of shares outstanding, fund-level tax adjustments and/or reclassifications, changes in capital gain estimates that may occur between the date when these estimates were prepared and the date when the actual capital gain amounts are finally determined, and other factors. These factors may also result in some WisdomTree ETFs, which currently show no estimated capital gain distributions, making a distribution at year-end.

The final per share amounts will be based on the actual number of shares outstanding on the Funds' record date, which we expect will differ from the number of shares outstanding when these estimates were prepared.

To estimate your distribution for a Fund on this list, multiply the number of shares you own by the Fund's estimated total distribution. Your final distribution will be based on the number of shares you own on the Fund's record date.

This notice contains forward-looking statements with respect to the estimated December 2019 capital gain distributions for the WisdomTree ETFs. Readers are cautioned not to place undue reliance on these forward-looking statements. WisdomTree does not undertake any obligation to publicly release the result of any revisions to these forward-looking statements to reflect events or circumstances after the date hereof to reflect the occurrence of unanticipated events. Actual results may vary in a materially positive or negative manner. Forecasts and declared distributions are subject to contingencies outside WisdomTree's control.

The tax information contained herein is based on estimates and is subject to change. The chart above is intended to provide information about the potential tax characterization of the Funds' distributions. It is not intended as tax advice. The tax consequences of Fund distributions vary by individual taxpayer. You should consult your tax professional or financial advisor for more information regarding your tax situation. To receive a distribution, you must have been a registered shareholder of a Fund on the distribution record date(s). Distributions are paid to shareholders on the payment date(s). Past distributions are not indicative of future distributions. Transactions in shares of the Funds may also generate tax consequences and transaction expenses.

There are risks associated with investing including possible loss of principal. Foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Funds focusing on a single country, sector and/or funds that emphasize investments in smaller companies may experience greater price volatility. Investments in emerging markets, real estate, currency, fixed income and alternative investments involve additional special risks. Derivative investments can be volatile, and these investments may be less liquid than other securities, and more sensitive to the effect of varied economic conditions. Due to the investment strategy of certain Funds, they may make higher capital gain distributions than other ETFs. Please see prospectus for discussion of risks.

Investors should consider the investment objectives, risks, charges and expenses of the funds carefully before investing. A prospectus, containing this and other information is available by calling 1-866-909-WISE (9473), or visit wisdomtree.com to view or download a prospectus. Investors should read the prospectus carefully before investing.
