

2017 Preliminary Estimated Capital Gains Distributions

Based on NAV and shares outstanding as of 11/6/2017

Please note these year-end preliminary estimates were based upon the best information available. **The information presented here isn't final; these are only preliminary estimates and are subject to significant change as we finalize our calculations.**

All estimates are subject to significant change based on a number of factors, including changes in the number of shares outstanding, fund-level tax adjustments, changes in income that may occur prior to record date, reclassification, and other factors. These factors may also result in some WisdomTree ETFs, which currently show no estimated dividends or capital gain distributions, making a distribution at year-end.

The final per share amounts will be based on the actual number of shares outstanding on the Funds' record date, which we expect will differ from the number of shares outstanding when these estimates were prepared.

To estimate your distribution for a Fund on this list, multiply the number of shares you own by the Fund's estimated total distribution. Your final distribution will be based on the number of shares you own on the Fund's record date.
