

WisdomTree Announces ETF Share Split

New York, NY – (GlobeNewswire) – October 1, 2020 – WisdomTree (NASDAQ: WETF), an exchange-traded product (“ETP”) sponsor and asset manager, today announced a forward share split on the WisdomTree China ex-State-Owned Enterprises Fund (CXSE). Forward splits increase the number of shares outstanding and decrease the price per share. The split will not change the total value of a shareholder’s investment.

The stock split will apply to shareholders of record as of the close of the markets on October 14, 2020, payable after the close of the markets on October 16, 2020. Shares will trade at their post-split price on October 19, 2020.

| Ticker | Fund Name | NAV per Share (as of 9/29/2020) | Split Ratio |
|--------|--|------------------------------------|-------------|
| CXSE | WisdomTree China ex-State-Owned Enterprises Fund | \$109.05 | 2:1 |

The following table illustrates the effect of a hypothetical 2-for-1 forward share split:

| Period | Number of Shares Owned | Hypothetical Price per Share | Total Value of Shares |
|------------|------------------------|------------------------------|-----------------------|
| Pre-Split | 100 | \$100.00 | \$10,000 |
| Post-Split | 200 | \$50.00 | \$10,000 |

The WisdomTree Capital Markets team is continually evaluating the suite of WisdomTree funds for potential operational or other changes that seek to benefit investors, with particular focus on ETF trading.

Michael Barrer, WisdomTree Associate Director of Capital Markets, “As CXSE continues to gain traction and interest from investors, splitting the fund’s price 2:1 has the potential to result in tighter bid/ask spreads for the benefit of all investors. Furthermore, the lower price point of the fund allows for a smaller minimum investment, as well as further ease when rebalancing ETF portfolios, among other potential benefits.”

There are risks associated with investing, including the possible loss of principal. Foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. The Fund focuses its investments in China, including A-shares, which include the risk of the Stock Connect program, thereby increasing the impact of events and developments associated with the region which can adversely affect performance. Investments in emerging or offshore markets are generally less liquid and less efficient than investments in developed markets and are subject to additional risks, such as risks of adverse governmental regulation and intervention or political developments. The Fund’s exposure to certain sectors may increase its vulnerability to any single economic or regulatory development related

to such sector. As this Fund can have a high concentration in some issuers, the Fund can be adversely impacted by changes affecting those issuers. Please read the Fund's prospectus for specific details regarding the Fund's risk profile.
