19 August 2026

WISDOMTREE ISSUER X LIMITED
(the "**Issuer**")

Notice to holders of Affected Securities (defined below) regarding the proposed third-party hard fork of the Bitcoin network

The Issuer notes that a third party, unconnected with the Issuer, has proposed a hard fork of the Bitcoin network, which may occur in the period commencing on or around 23 August 2026 (the "**Hard Fork**") and which, if it occurs, will result in the creation of a new blockchain and associated forked assets (the "**Forked Assets**"). The Hard Fork is an event outside the control of the Issuer, and no action is required on the part of holders.

The Issuer intends to designate a record date for the following Digital Securities (together, the **Affected Securities**) on or around the date of the Hard Fork (the "**Record Date**"):

Class of Affected Securities	*ISIN*	*Listed Venues*
WisdomTree Physical Bitcoin	GB00BJYDH287	SIX, Xetra, Euronext (FR), Euronext (NL), Borsa Italiana, LSE
WisdomTree Physical CoinDesk 20	GB00BN474G19	SIX, Xetra, Euronext (FR), Euronext (NL), Borsa Italiana
WisdomTree Physical Crypto Mega Cap	GB00BMTP1626	SIX, Xetra, Euronext (FR), Euronext (NL)
WisdomTree Physical Crypto Mega Cap Equal Weight	GB00BMTP1733	SIX, Xetra, Euronext (FR), Euronext (NL)

The Record Date is being designated as a precautionary measure considering the current uncertainty, to identify the holders who may be entitled to any Forked Assets the Issuer is able to realise, should the Hard Fork occur. The designation of a Record Date does not indicate that any Forked Assets will exist, have value, or be capable of being distributed to holders.

The Issuer is and will closely monitor the impact of the Hard Fork and assess the options available to it should the Hard Fork occur, which may depend on options made available by related third parties such as Custodians, Exchanges and Authorised Participants. Should the Hard Fork occur, the Issuer will assess the options available to it with an aim to enable holders of the Affected Securities as at the Record Date to receive any Forked Assets to which they may be entitled.

The Issuer notes that if the Hard Fork occurs, it will not impact the security or structure of the Affected Securities, nor will it affect the operation of the Affected Securities. The Issuer further notes that it can give no guarantee that it will be able to identify a way of providing any such Forked Assets to the holders of the Affected Securities as of the Record Date. Any holder of the Affected Securities who acquires Affected Securities after the Record Date shall not receive any Forked Assets.

Terms not defined herein have the same meaning given to them in the prospectuses of the Issuer dated 29 October 2025.

A further update shall be given to holders of the Affected Securities by way of notice in due course. For further information, please contact:
