Points clés

- European defence spending has surged past Cold War levels, with joint EU initiatives and fiscal flexibility boosting investment in air defence and drone production.
- The WisdomTree Europe Defence UCITS ETF (WDEF) offers targeted exposure to companies like Leonardo and Dassault, which are central to Europe's UAV and counter-drone strategies.
- Strategic alliances and combat-tested UAV platforms position Leonardo and Dassault as key enablers of Europe's drive toward defence autonomy and next-generation military capabilities.

It is not a secret that Europe's defence landscape has shifted dramatically to a pace unseen since the Cold War. In 2022, Central and Western Europe's combined military outlays reached \$345 billion, surpassing 1989 levels as the Cold War ended¹. Where there is a commonly cited "peace dividend", this is the era reaping the rearmament rewards. Even traditionally pacifist countries are upping their defence outlays, while frontline states like Poland and the Baltic nations are planning well above 2% of GDP (the NATO defence spending target) to bolster their militaries.

Of note, European officials, including the European Central Bank (ECB) (monetary) policymaker Olli Rehn, have explicitly called for joint EU programs to fund air defence and drone production to support Ukraine and strengthen Europe's own defence, even if it means loosening fiscal rules². When the monetary policy folks start weighing in on defence spending, it is best not to ignore it.

The [WisdomTree Europe Defence UCITS ETF \(WDEF\)](#) is particularly well positioned to benefit from this trend by investing exclusively across the European defence value chain and providing exposure to more than 20 leading European defence companies. Those companies have strong exposure to land-based systems (for example, vehicles) and air defence (for example, drones) and are particularly well-aligned with projected increased European military expenditures. The exchange-traded fund (ETF) focuses only on European listed companies with at least 10% of their revenue from the defence industry and the weight for each company is directly linked to the proportion of their revenues coming from defence. This is why a smaller company, like Rheinmetall (obtaining 70% of revenue from defence), gets a 12.5% weight while a bigger company, like Airbus (obtaining only 20% of revenue from defence), only gets 7.5% weight.

Two integral European defence stocks

Two of the holdings in the [WisdomTree European Defence UCITS ETF \(WDEF\)](#), Dassault Aviation and Leonardo SpA, are integral to Europe’s defence-industrial base and they will be pivotal beneficiaries of the continent’s rearmament. Crucially, unmanned aerial vehicles (UAVs)—from surveillance drones to combat-capable systems—are an area where both firms are actively developing capabilities, aligning with Europe’s defence priorities.

Dassault Aviation, long synonymous with fighter jets, spearheaded Europe’s stealth unmanned combat air vehicle (UCAV) demonstrator nEUROn. Launched in the 2000s as a multinational project, nEUROn was led by Dassault Aviation with contributions from several European partners including Leonardo SpA (then Alenia)³. nEUROn combines many of the critical components of modern warfare systems including autonomous flight controls and low-observable (stealth) design. The project is also demonstrative of pan-European collaboration in UAVs. Not to be outdone, Leonardo SpA has developed its own family of

medium drones (such as the Falco UAV series). Not to mention, its collaborations with companies like BAE Systems (another holding in WDEF) in the Eurofighter Typhoon and next-gen Tempest/GCAP fighter programs.

In essence, Dassault Aviation and Leonardo SpA are key enablers of Europe’s push for strategic autonomy in defence and are poised to benefit from the pivot to UAVs—a shift that began slowly at the beginning of the 21st Century and accelerated meaningfully with the experience gained from the conflict in Ukraine. European militaries have been paying attention; drones have proven their value for reconnaissance, target acquisition, and even precision strikes, fundamentally changing battlefield dynamics. It is a UAV world; legacy tech is just living in it.

While Dassault Aviation and Leonardo SpA aren’t major producers of small drones, it is not as though the two are going to be left behind. Leonardo SpA is developing anti-drone defences and electronic jamming systems. This makes sense. Increased drone usage increases demand for counter-UAV technologies, an area where Leonardo SpA’s electronics division is poised to benefit from radar and laser-based drone neutralisation⁴.

Alliances are the way forward

The surge in European defence spending is expanding the pie for industry, but it’s also intensifying both competition and collaboration among defence contractors. Interestingly, in the realm of UAVs, collaboration is often seen as the fastest way to close capability gaps. Both Dassault Aviation and Leonardo SpA have shown a willingness to team up with traditional competitors or even non-European firms when strategic.

Dassault Aviation and Leonardo SpA find themselves at the nexus of this transformation—bolstered by macroeconomic trends and political resolve and delivering the technologies that will define European security in the coming decades. The unfolding emphasis on UAVs is a microcosm of the broader story: drones have moved from peripheral acquisitions to must-have capabilities. UAV development, in particular,

stands out as both a growth avenue and a strategic imperative. Dassault Aviation and Leonardo SpA are leveraging their deep expertise and forging new partnerships to ensure Europe's militaries have the drones they require.

Conclusion

The narrative? Reallocation and rearmament. The timeline might be best described as "defence for the long run". The beneficiaries are those positioned to meet Europe's capability gaps. Dassault Aviation carries the mantle of Europe's aerospace prowess and is now backed by a strong wind of political will and funding.

WisdomTree Issuer ICAV

The products discussed in this document are issued by WisdomTree Issuer ICAV ("WT Issuer"). WT Issuer is an umbrella investment company with variable capital having segregated liability between its funds organised under the laws of Ireland as an Irish Collective Asset-management Vehicle and authorised by the Central Bank of Ireland ("CBI"). WT Issuer is organised as an Undertaking for Collective Investment in Transferable Securities ("UCITS") under the laws of Ireland and shall issue a separate class of shares ("Shares") representing each fund.

The Fund is described in a Key Information Document (KID) or Key Investor Information Document (KIID) for UK investors, and the prospectus of WT Issuer ("WT Prospectus"). A copy of the WT Prospectus and the KID / KIID is available, for EEA/UK only, in English at www.wisdomtree.eu. Where required under national rules, the KID will also be available in the local language of the relevant EEA Member State. Investors should read the WT Prospectus before investing and should refer to the section of the WT Prospectus entitled »Risk Factors¼ for further details of risks associated with an investment in the Shares.

The [summary of investor rights](#) associated with an investment in the fund is available in English on WisdomTree Europe's website. WisdomTree Management Limited may decide to terminate the arrangements made for the marketing of its collective investment undertakings. In such circumstances, shareholders in the affected EEA Member State will be notified of this decision and will be provided with the opportunity to redeem their shareholding in the fund free of any charges or deductions for at least 30 working days from the date of such notification.

Notice to Investors in Switzerland – Qualified Investors

This document constitutes an advertisement of the financial product(s) mentioned herein.

The prospectus and the key investor information documents (KIID) are available from WisdomTree's website: <https://www.wisdomtree.eu/en-ch/resource-library/prospectus-and-regulatory-reports>

Some of the sub-funds referred to in this document may not have been registered with the Swiss Financial Market Supervisory Authority ("FINMA"). In Switzerland, such sub-funds that have not been registered with FINMA shall be distributed exclusively to qualified investors, as defined in the Swiss Federal Act on Collective Investment Schemes or its implementing ordinance (each, as amended from time to time). The representative and paying agent of the sub-funds in Switzerland is Société Générale Paris, Zurich Branch, Talacker 50, PO Box 5070, 8021 Zurich, Switzerland. The prospectus, the key investor information documents (KIID), the articles of association and the annual and semi-annual reports of the sub-funds are available free of charge from the representative and paying agent. As regards distribution in Switzerland, the place of jurisdiction and performance is at the registered seat of the representative and paying agent.

For Investors in France:

The information in this document is intended exclusively for professional investors (as defined under the MiFID) investing for their own account and this material may not in any way be distributed to the public. The distribution of the Prospectus and the offering, sale and delivery of Shares in other jurisdictions may be restricted by law. WT Issuer is a UCITS governed by Irish legislation, and approved by the Financial Regulatory as UCITS compliant with European regulations although may not have

to comply with the same rules as those applicable to a similar product approved in France. The Fund has been registered for marketing in France by the Financial Markets Authority (Autorité des Marchés Financiers) and may be distributed to investors in France. Copies of all documents (i.e. the Prospectus, the Key Investor Information Document, any supplements or addenda thereto, the latest annual reports and the memorandum of incorporation and articles of association) are available in France, free of charge at the French centralizing agent, Societe Generale at 29, Boulevard Haussmann, 75009, Paris, France. Any subscription for Shares of the Fund will be made on the basis of the terms of the prospectus and any supplements or addenda thereto.

For Investors in Malta: This document does not constitute or form part of any offer or invitation to the public to subscribe for or purchase shares in the Fund and shall not be construed as such and no person other than the person to whom this document has been addressed or delivered shall be eligible to subscribe for or purchase shares in the Fund. Shares in the Fund will not in any event be marketed to the public in Malta without the prior authorisation of the Maltese Financial Services Authority.

For Investors in Monaco: This communication is only intended for duly registered banks and/or licensed portfolio management companies in Monaco. This communication must not be sent to the public in Monaco.
