We performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that WisdomTree Metal Securities Limited has not violated Islamic Shariah Rules and Principles.

In our opinion:

- the agreements, transactions and dealings entered into by WisdomTree Metal Securities Limited during the year ended 31st December 2025 that we have reviewed are in compliance with the Islamic Shariah Rules and Principles. We are also assured that the trading in the five months of 2026 is on an identical basis of the documents audited for the year ended 31st December 2025.
 - the modus operandi detailed in the documents we have reviewed for investing in MSL is in accordance with Islamic Shariah Rules and Principles. This includes investment in each of the funds under the WisdomTree MSL umbrella, viz:
 - WisdomTree Physical Platinum;
 - WisdomTree Physical Palladium;
 - WisdomTree Physical Silver;
 - WisdomTree Core Physical Silver
 - WisdomTree Physical Gold;
 - WisdomTree Core Physical Gold;
 - WisdomTree Physical Swiss Gold; and
 - WisdomTree Physical Precious Metals Basket
- WisdomTree Metal Securities Limited is fully compliant with the Screening Criteria approved by the Al-Qalam Shariah panel.

We note that AAOIFI published Standard No. 57 on Gold and its Trading Controls (Arabic) in November 2017, which requires that the counter-values are exchanged during the trading session, even if on a constructive basis. It is our assessment that the AAOIFI standard No. 57¹ does not allow the mutual book entry of the trade and the earmarking of the securities with "pending out settlement" status in the seller's account until the settlement date to be considered a constructive form of possession and, hence, requires final settlement on a T+0 basis. WisdomTree Metal Securities are settled on a T+2 basis. On T+2 the investor or broker makes payment for the Metal Securities and the Metal Securities are simultaneously delivered to the purchaser under the Delivery Versus Payment system (DVP) and the shares settle in the CREST settlement and clearing system. Thus, a *prima facie* reading of the AAOIFI Standard No. 57 would indicate that the trading of WisdomTree Gold [and Silver] Metal Securities does not currently adhere to the AAOIFI Shariah Standards. Al-Qalam recognises the primacy of the AAOIFI Standards as a valid measure of Sharia compliance and seeks to adhere to the same whenever possible. However, it is our assessment that the trading of WisdomTree Gold [and Silver] Metal Securities does, despite a delay up to T+2, adhere to the AAOIFI Shariah Standards as AAOIFI Standard No. 1 on Trading in Currencies² tolerates a delay due to unavoidable constraints of prevailing business practices. However, no subsequent trade can be concluded until the trade has been settled.

We beg Allah the Almighty to grant us all success and straight-forwardness.
