Director, Research

## Key Takeaways

- Nvidia is rising rapidly in the rankings of the world's most valuable brands.
- These five companies offer unique products catering to major businesses across various industries.
- Related Products WisdomTree Artificial Intelligence UCITS ETF – USD Acc Find out more

A recent study of the top 10 most valuable brands<sup>1</sup> in the world found Apple holding the number one position for the third consecutive year with a brand value exceeding US\$1 trillion. Google, Microsoft, Amazon, and McDonald's round out the rest of the top five. Interestingly, Nvidia features at number six, leaping 18 spots in a year and seeing its brand value rise by 178%—by far the biggest increase among the top 10.

How does a company making semiconductors, a technology few people truly understand, rank right next to the company that is practically the symbol of fast food worldwide? Given how swiftly Nvidia is rising in the rankings, will people who say, "I'm lovin' it" about their McDonald's soon start saying, "I'm liking this, but I'm loving Nvidia more"? Is the world's love for chips going to exceed its love for fries?

Nvidia's prominence among the most popular brands is arguably linked to its share price performance over the last couple of years. This positions it alongside the biggest companies in terms of market capitalisation—a purely financial measure, unlike intangible brand value.

But Nvidia is not alone in its field. Just as there are competitors like KFC, Five Guys, and Burger King in the fast-food industry, other companies are making semiconductors. They, too, are making waves this year with spectacular stock market returns, even if they don't quite match Nvidia's meteoric rise. This blog highlights five such companies from the US. The focus is on US-based businesses to draw a closer comparison to Nvidia.

## How investors can access the opportunity

WisdomTree Artificial Intelligence UCITS ETF has been built in partnership with NASDAQ and the Consumer Technology Association (CTA) to embed AI industry expertise into an investment solution. CTA's input into the stock selection process facilitates the curation of a pure AI exposure that is differentiated and evolves along with the underlying technologies.

The ETF allocates 40% of its weight to enablers of AI, a category that typically includes semiconductor businesses. Importantly, the ETF equally weights all stocks within each of its three categories: engagers (50% weight), enablers (40%), and enhancers (10%)<sup>2</sup>. By equally weighting the stocks within each category, the ETF mitigates the risk of any single company, such as Nvidia, dominating the index. This approach gives investors a more diversified exposure and addresses concerns about concentration and valuations.

## 1. Qualcomm

Qualcomm's origins date back to 1985 when it was created to build 'QUALity COMMunications'. Today, Qualcomm prides itself on bringing data processing and intelligence to the edge. In other words, the company provides the computing power for billions of smart connected devices, such as smartphones, tablets, wearables, cameras, smart home devices and much more.

One of their products is Snapdragon Seamless, which allows people to seamlessly switch between watches, mobile phones, tablets, and laptops. Therefore, it is no surprise that Apple and Samsung are among Qualcomm's biggest customers.

In the first half of 2024, Qualcomm's share price was up 39%<sup>3</sup>.

## 2. Broadcom

Broadcom's history goes back to 1961, when it was established to advance semiconductor solutions. Today, Broadcom is a prominent name that provides industry-leading infrastructure technology. Put differently, the company delivers essential hardware and software solutions for various markets, including data centres, networking, broadband, wireless, and storage.

One of their products is the Tomahawk series of switches, which enables high-speed data transfer and connectivity in data centres. As a result, companies like Google and Microsoft are among Broadcom's biggest customers.

In the first half of 2024, Broadcom's share price was up almost 45%<sup>4</sup>.

## 3. Micron Technology

Micron Technology was founded in 1978 to innovate in the semiconductor industry. Over the years, it has become known for providing advanced memory and storage solutions. In other words, the company delivers crucial memory and storage technologies used in various applications, including computing, networking, and mobile devices.

One of their products is the 3D NAND flash memory, sometimes referred to as a tiny skyscraper of storage. It offers high density and performance for data storage. Companies like Dell and HP are among Micron Technology's biggest customers.

In the first half of 2024, Micron Technology's share price was up 54%<sup>5</sup>.

## 4. Teradyne

Teradyne's origins date back to 1960, when it was established to pioneer automated testing equipment. Since then, Teradyne has excelled in delivering cutting-edge solutions for testing semiconductors, wireless products, and complex electronic systems. The company, therefore, provides essential technology that ensures the performance and reliability of electronic devices in various industries.

One of their products is the UltraFLEX test system, which offers high efficiency and accuracy for semiconductor testing. Consequently, leading technology companies like Intel and Texas Instruments are among Teradyne's major customers.

In the first half of 2024, Teradyne's share price was up almost 37%<sup>6</sup>.

## 5. Marvell Technology

Marvell Technology (not to be confused with Marvel Studios, the entertainment company) was founded in 1995 to develop innovative storage, networking, and connectivity solutions. Over time, Marvell has become a leader in providing advanced semiconductor products.

One of their notable products is the QLogic Fibre Channel adapter, which delivers high performance and reliability for data centre applications. As a result, companies like Cisco and Juniper Networks are among Marvell Technology's prominent customers.

In the first half of 2024, Marvell Technology's share price was up 16%<sup>7</sup>.

## Conclusion

These companies are at the forefront of developing hardware that will power the digital revolution and artificial intelligence. As global demand for computing power rises and the need for data storage and processing continues to surge, these companies will play an increasingly vital role. Their performance in the first half of 2024 demonstrates a growing recognition from the markets of their importance.

### **WisdomTree Issuer ICAV**

The products discussed in this document are issued by WisdomTree Issuer ICAV ("WT Issuer"). WT Issuer is an umbrella investment company with variable capital having segregated liability between its funds organised under the laws of Ireland as an Irish Collective Asset-management Vehicle and authorised by the Central Bank of Ireland ("CBI"). WT Issuer is organised as

an Undertaking for Collective Investment in Transferable Securities ("UCITS") under the laws of Ireland and shall issue a separate class of shares ("Shares") representing each fund. Investors should read the prospectus of WT Issuer ("WT Prospectus") before investing and should refer to the section of the WT Prospectus entitled »Risk Factors¼ for further details of risks associated with an investment in the Shares.

### **WisdomTree Artificial Intelligence UCITS ETF**

Nasdaq® and the Nasdaq CTA Artificial intelligence Index are registered trademarks of Nasdaq, Inc. (which with its affiliates is referred to as the "Corporations") and are licensed for use by WisdomTree Management Limited. The WisdomTree Artificial Intelligence UCITS ETF (the "Fund") has not been passed on by the Corporations as to its legality or suitability. Shares in the Fund are not issued, endorsed, sold, or promoted by the Corporations. THE CORPORATIONS MAKE NO WARRANTIES AND BEAR NO LIABILITY WITH RESPECT TO THE FUND.

### **Notice to Investors in Switzerland – Qualified Investors**

This document constitutes an advertisement of the financial product(s) mentioned herein.

The prospectus and the key investor information documents (KIID) are available from WisdomTree¼s website: **https://www.wisdomtree.eu/en-ch/resource-library/prospectus-and-regulatory-reports**

Some of the sub-funds referred to in this document may not have been registered with the Swiss Financial Market Supervisory Authority ("FINMA"). In Switzerland, such sub-funds that have not been registered with FINMA shall be distributed exclusively to qualified investors, as defined in the Swiss Federal Act

on Collective Investment Schemes or its implementing ordinance (each, as amended from time to time). The representative and paying agent of the sub-funds in Switzerland is Société Générale Paris, Zurich Branch, Talacker 50, PO Box 5070, 8021 Zurich, Switzerland. The prospectus, the key investor information documents (KIID), the articles of association and the annual and semi-annual reports of the sub-funds are available free of charge from the representative and paying agent. As regards distribution in Switzerland, the place of jurisdiction and performance is at the registered seat of the representative and paying agent.

### **For Investors in France**

The information in this document is intended exclusively for professional investors (as defined under the MiFID) investing for their own account and this material may not in any way be distributed to the public. The distribution of the Prospectus and the offering, sale and delivery of Shares in other jurisdictions may be restricted by law. WT Issuer is a UCITS governed by Irish legislation, and approved by the Financial Regulatory as UCITS compliant with European regulations although may not have to comply with the same rules as those applicable to a similar product approved in France. The Fund has been registered for marketing in France by the Financial Markets Authority (Autorité des Marchés Financiers) and may be distributed to investors in France. Copies of all documents (i.e. the Prospectus, the Key Investor Information Document, any supplements or addenda thereto, the latest annual reports and the memorandum of incorporation and articles of association) are available in France, free of charge at the French centralizing agent, Societe Generale at 29, Boulevard Haussmann, 75009, Paris, France. Any subscription for Shares of the Fund will be made on the basis of the terms of the prospectus and any supplements or addenda thereto.

**For Investors in Malta:** This document does not constitute or form part of any offer or invitation to the public to subscribe for or purchase shares in the Fund and shall not be construed as such and no person other than the person to whom this document has been addressed or delivered shall be eligible to subscribe for or purchase shares in the Fund. Shares in the Fund will not in any event be marketed to the public in Malta without the prior authorisation of the Maltese Financial Services Authority.

**For Investors in Monaco:** This communication is only intended for duly registered banks and/or licensed portfolio management companies in Monaco. This communication must not be sent to the public in Monaco.
