

# Ukraine reconstruction: how Europe's infrastructure capabilities can contribute

Published 3 June 2026

## Key Takeaways

- Ukraine's reconstruction could require substantial infrastructure investment, with the largest needs concentrated in transport, energy and the systems that support economic recovery.
- Europe's infrastructure ecosystem may play an important role, given Ukraine's closer links with the EU and existing cooperation frameworks.
- The most relevant company exposure may sit across three areas: energy and grid equipment, transport and civil infrastructure, and construction materials.

While news of a ceasefire or peace talks has continued to move in and out of focus, Ukraine's eventual reconstruction is already worth considering through the lens of Europe's infrastructure supply chain. The task is likely to become one of the largest infrastructure challenges in Europe for a generation. The latest Rapid Damage and Needs Assessment (RDNA5), prepared by the Government of Ukraine, the World Bank Group, the European Commission and the United Nations, estimates that Ukraine's recovery and reconstruction needs amount to almost US\$588 billion over the next decade. The largest needs are concentrated in the systems that allow the economy to function, especially transport and energy, alongside housing, industry and essential public services. Within infrastructure, transport and energy stand out: transport needs exceed US\$96 billion, while power and heating restoration is estimated at around US\$90.6 billion.

## Why Europe's infrastructure supply chain matters

While the human and social needs come first, the scale of reconstruction also points to a long-term demand cycle for infrastructure development. It will require a large and coordinated infrastructure effort, drawing on expertise and supply chains across Europe. Many of the organisations directly involved in rebuilding Ukraine are likely to be domestic, state-owned or privately held. This means the more visible listed exposure may sit in the European infrastructure supply chain. In that sense, Ukraine's reconstruction may become a European infrastructure theme as much as a Ukrainian recovery theme.

European companies are also likely to be relevant because the reconstruction process is closely linked to EU institutions, development banks and existing cooperation frameworks with Ukraine, such as the EU's Ukraine Investment Framework. These frameworks can help translate infrastructure needs into investable projects and may favour companies with experience in European procurement, infrastructure delivery and regulated project standards.

From an infrastructure value chain perspective, this creates two complementary routes into the theme. The first is through companies that can help deliver large construction projects, such as transport and energy infrastructure. The second is through suppliers whose products are embedded into those projects. This is why the theme should not be viewed only through construction companies or only through equipment makers. Ukraine's reconstruction will likely require both.

## Core areas of exposure

The first major area of focus is energy, grid and electrification. Ukraine's power system has suffered extensive damage, and a durable recovery would need a more resilient network, from generation and substations to grid equipment. Companies such as Siemens Energy, Schneider Electric, Prysmian and NKT could play a role in this part of the rebuild. The rationale is straightforward: before the wider economy can recover, power must be reliable. Cable makers and transformer suppliers may be particularly relevant because Europe is already facing a tight supply in grid equipment. If reconstruction spending accelerates, Ukraine-related demand could contribute to activity across parts of the European electrification and infrastructure supply chain.

Transport and civil infrastructure form another central pillar of the reconstruction effort. Ukraine will need to repair and modernise roads, rail links and border crossings. RDNA5 says transport needs have increased by around 24%<sup>1</sup> versus the previous assessment, reflecting intensified attacks on rail and ports during 2025. This is where European contractors and infrastructure groups could participate, especially those with Central and Eastern European (CEE) experience. Strabag and Ferrovial (via Budimex) are useful examples of the CEE corridor angle, while Vinci, ACS and Eiffage represent broader European contracting capacity. The regional angle is important as well. Poland and Romania, alongside other neighbouring EU markets, are likely to act as practical gateways for equipment, materials and contractors entering Ukraine, as the country deepens its economic links with the EU.

The third area is construction materials. Rebuilding transport infrastructure, utilities and public buildings requires large volumes of basic building materials, from cement and aggregates to pipes and insulation. The housing need also adds to this demand: the Ukrainian government says 14%<sup>2</sup> of the country's housing stock, affecting more than 3 million households, has been damaged or destroyed. This creates a natural role for European materials companies such as Heidelberg Materials and Holcim. In addition, CRH, though with a significant US business, also stands out because it has direct Ukrainian cement exposure through CEMARK. CEMARK operates Ukrainian cement plants and is part of the CRH group.

## Conclusion

Ukraine's reconstruction could become a major, multi-year infrastructure effort. Given the scale of the rebuild and Ukraine's closer ties with the EU, European companies are likely to play an important role. The clearest opportunities sit in two parts of the infrastructure value chain: companies that can build critical infrastructure, and suppliers that provide the materials and equipment behind it. Together, they form the European infrastructure ecosystem that can help restore Ukraine's connectivity, resilience and economic capacity.

## What WisdomTree offers

The [WisdomTree Europe Infrastructure UCITS ETF](#) captures companies enabling Europe's next infrastructure wave, with a focus on businesses involved in building and developing infrastructure assets rather than primarily operating existing networks. Its exposure is tilted towards the builders and suppliers behind new infrastructure investment, including engineering and construction groups, grid and power equipment companies, specialist component makers and key materials suppliers. Therefore, the strategy is positioned not only for Europe's broader infrastructure investment cycle, but also for potential incremental demand linked to Ukraine's eventual reconstruction, offering investors a diversified way to access the European infrastructure ecosystem that could contribute to Ukraine's rebuild.

Investment exposure linked to infrastructure and reconstruction themes involves risks, including political, geopolitical and regulatory uncertainty. The scale, timing and funding of any future reconstruction activity in Ukraine remain unclear and may evolve materially over time. Companies expected to benefit from infrastructure spending may not ultimately participate in reconstruction projects or generate the anticipated commercial outcomes. Infrastructure-related investments may also be affected by changes in government policy, construction costs, supply chain disruption, interest rates and broader economic conditions. Investments in equity securities can fluctuate in value and investors may lose some or all of their investment.

### **WisdomTree Issuer ICAV**

Certain funds referred to in this document are issued by WisdomTree Issuer ICAV ("WT Issuer"). WT Issuer is an open-ended, umbrella-type Irish Collective Asset-management Vehicle with segregated liability between sub-funds and is authorised by the Central Bank of Ireland ("CBI") as an Undertaking for Collective Investment in Transferable Securities ("UCITS") under Irish law. Each fund is represented by a separate class of shares (the "Shares") issued by WT Issuer.

The Fund is described in a Key Information Document (KID) or Key Investor Information Document (KIID) for UK investors, and the prospectus of WT Issuer ("WT Prospectus"). A copy of the WT Prospectus and the KID / KIID is available, for EEA/UK only, in English at [www.wisdomtree.eu](http://www.wisdomtree.eu). Where required under national rules, the KID will also be available in the local language of the relevant EEA Member State. Investors should read the WT Prospectus before investing and should refer to the section of the WT Prospectus entitled »Risk Factors¼ for further details of risks associated with an investment in the Shares.

The [summary of investor rights](#) associated with an investment in the fund is available in English on WisdomTree Europe's website. WisdomTree Management Limited may decide to terminate the arrangements made for the marketing of its collective investment undertakings. In such circumstances, shareholders in the affected EEA Member State will be notified of this decision and will be provided with the opportunity to

redeem their shareholding in the fund free of any charges or deductions for at least 30 working days from the date of such notification.

**For Investors in Switzerland:**

This document constitutes an advertisement of the financial product(s) mentioned herein.

The prospectus (in English only) and the key investor information documents (KID) (in German, French and Italian) are available from WisdomTree's website <https://www.wisdomtree.eu/en-ch/resource-library/prospectus-and-regulatory-reports>

**For WisdomTree UCITS products only:** the representative and paying agent of the ETPs in Switzerland is Société Générale Paris, Zurich Branch, Talacker 50, PO Box 5070, 8021 Zurich, Switzerland. The prospectus, the key investor information documents (KIID), the articles of association and the annual and semi-annual reports of the sub-funds are available free of charge from the representative and paying agent. As regards distribution in Switzerland, the place of jurisdiction and performance is at the registered seat of the representative and paying agent. Some of the sub-funds referred to in this document may not have been registered with the Swiss Financial Market Supervisory Authority ("FINMA"). In Switzerland, such sub-funds that have not been registered with FINMA may only be available to Qualified Investors.

**For Investors in France:**

The information in this document is intended exclusively for professional investors (as defined under the MiFID) investing for their own account and this material may not in any way be distributed to the public. The distribution of the Prospectus and the offering, sale and delivery of Shares in other jurisdictions may be restricted by law. WT Issuer is a UCITS governed by Irish legislation, and approved by the Financial Regulatory as UCITS compliant with European regulations although may not have to comply with the same rules as those applicable to a similar product approved in France. The Fund has been registered for marketing in France by the Financial Markets Authority (Autorité des Marchés Financiers) and may be distributed to investors in France. Copies of all documents (i.e. the Prospectus, the Key Investor Information Document, any supplements or addenda thereto, the latest annual reports and the memorandum of incorporation and articles of association) are available in France, free of charge at the French centralizing agent, Societe Generale at 29, Boulevard Haussmann, 75009, Paris, France. Any subscription for Shares of the Fund will be made on the basis of the terms of the prospectus and any supplements or addenda thereto.

**For Investors in Malta:** This document does not constitute or form part of any offer or invitation to the public to subscribe for or purchase shares in the Fund and shall not be construed as such and no person other than the person to whom this document has been addressed or delivered shall be eligible to subscribe for or purchase shares in the Fund. Shares in the

Fund will not in any event be marketed to the public in Malta without the prior authorisation of the Maltese Financial Services Authority.

**For Investors in Monaco:** This communication is only intended for duly registered banks and/or licensed portfolio management companies in Monaco. This communication must not be sent to the public in Monaco.

**For Investors in Israel:** Offering materials for the offering of the Shares and securities have not been filed with or approved or disapproved by the United States Securities and Exchange Commission or any other state or federal regulatory authority, nor has any such regulatory authority passed upon or endorsed the merits of this offering or passed upon the accuracy or completeness of any offering materials. Any representation to the contrary is unlawful. The products mentioned herein have not been approved by the Israel Securities Authority and will only be distributed to Israeli residents in a manner that will not constitute “an offer to the public” under sections 15 and 15a of the Israel Securities Law, 5728-1968 (“the Securities Law”) or section 25 of the Joint Investment Trusts Law, 5754-1994 (“the Joint Investment Trusts Law”), as applicable. The products are being offered to a limited number of investors (35 investors or fewer during any given 12 month period) and/or those categories of investors listed in the First Addendum (“the Addendum”) to the Securities Law, “Sophisticated Investors”) who in each case have provided written confirmation that they qualify as Sophisticated Investors, and that they are aware of the consequences of such designation and agree thereto; in all cases under circumstances that will fall within the private placement or other exemptions of the Joint Investment Trusts Law, the Securities Law and any applicable guidelines, pronouncements or rulings issued from time to time by the Israel Securities Authority.

This prospectus or this document may not be reproduced or used for any other purpose, nor be furnished to any other person other than those to whom copies have been sent. Any offeree who purchases a product is purchasing such product for its own benefit and account and not with the aim or intention of distributing or offering such product to other parties (other than, in the case of an offeree which is a Sophisticated Investor by virtue of it being a banking corporation, portfolio manager or member of the Tel-Aviv Stock Exchange, as defined in the Addendum, where such offeree is purchasing a product for another party which is a Sophisticated Investor).

Nothing in this document should be considered investment advice or investment marketing as defined in the Regulation of Investment Counselling, Investment Marketing and Portfolio Management Law, 5755-1995. Investors are encouraged to seek competent investment counselling from a locally licensed investment counsel prior to making the investment. A recipient of this document may be required to provide confirmation that it is a Sophisticated Investor purchasing a product for its own account or, where applicable, for other Sophisticated Investors.
