WisdomTree Launches First China Dividend ex-Financials Fund (CHXF)

CHXF Offers Diversified Exposure to Growth Potential of China

Fund removes volatility of financial sector, presenting meaningful alternative to traditional China index-based strategies

New York, NY – (GlobeNewswire) – September 19, 2012 – WisdomTree (NASDAQ: WETF), an exchange-traded fund (“ETF”) sponsor and asset manager, today announced the launch of the WisdomTree China Dividend ex-Financials Fund (CHXF) on the NASDAQ Stock Market. CHXF is designed to provide broad-based exposure to Chinese dividend-paying stocks outside of the financial sector and has an expense ratio of 0.63%.

Luciano Siracusano, WisdomTree Chief Investment Strategist, stated “The case for investing in China has become increasingly apparent to investors, but we believe some of the most popular China index-based strategies fail to offer diversified exposure. In fact, the FTSE China 25 Index1 – tracked by the biggest China ETF in the U.S. – has more than 50% of its weight in the financial sector.2 We think investors should be able to access the growth potential of China without taking on such concentration risk, and have designed CHXF to offer a broader, diversified basket of Chinese dividend-paying securities.”

The WisdomTree China Dividend ex-Financials Fund (CHXF) seeks to offer:

- A diversified basket of Chinese dividend-paying securities
- No financial exposure
- A dividend-weighted approach

“The addition of CHXF makes for WisdomTree’s third ‘ex-financials’ strategy fund, joining The WisdomTree Dividend ex-Financials Fund (DTN) and The WisdomTree International Dividend ex-Financials Fund (DOO),” Siracusano said. “We have found that removing financials is an attractive tool for investors focusing on risk management in particular equity markets.”

uncertainty. Diversification does not eliminate the risk of experiencing investment results. The Fund focuses its investments in China, thereby increasing the impact of events and developments associated with the region which can adversely affect performance. Investments in emerging or offshore markets are generally less liquid and less efficient than investments in developed markets and are subject to additional risks, such as risks of adverse governmental regulation and intervention or political developments. As this Fund can have a high concentration in some issuers, the Fund can be adversely impacted by changes affecting those issuers. Please read the Fund’s prospectus for specific details regarding the Fund’s risk profile.
