

Fund Overview

The WisdomTree U.S. Quality Growth Fund seeks to track the price and yield performance, before fees and expenses, of the WisdomTree U.S. Quality Growth Index.

Why QGRW?

- Gain core exposure to U.S. large- to -mid- market capitalization companies that display strong quality and growth characteristics
- Use as a U.S. growth investing solution that combines quality and growth factors
- Use to satisfy demand for clients seeking high-conviction growth allocations that emphasize profitability

Performance of less than one year is cumulative. You cannot invest directly in an index.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at wisdomtree.com/investments.

WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Total Returns are calculated using the daily 4:00pm EST net asset value (NAV). Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times.

Fund Dividend Distribution and Capital Gains

Year	Income	Short-term Capital Gains	Long-term Capital Gains	Return of Capital	Year-End NAV
2023	0.04	0.00	0.00	0.00	35.85
2022	0.00	0.00	0.00	0.00	23.29

Disclosures

Investors should carefully consider the investment objectives, risks, charges and expenses of the Funds before investing. To obtain a prospectus containing this and other important information, please call 866.909.9473, or visit WisdomTree.com/investments to view or download a prospectus. Investors should read the prospectus carefully before investing.

There are risks associated with investing, including possible loss of principal. Growth stocks, as a group, may be out of favor with the market and underperform value stocks or the overall equity market. Growth stocks are generally more sensitive to market movements than other types of stocks. The Fund is non-diversified, as a result, changes in the market value of a single security could cause greater fluctuations in the value of Fund shares than would occur in a diversified fund. The Fund invests in the securities included in, or representative of, its Index regardless of their investment merit. The Fund does not attempt to outperform its Index or take defensive positions in declining markets and the Index may not perform as intended. Please read the Fund's prospectus for specific details regarding the Fund's risk profile.

The WisdomTree U.S. Quality Growth Index is a market-cap weighted index that consists of companies with quality and growth characteristics. The top 500 companies by market capitalization are ranked on a composite score of two fundamental factors: growth and quality, which are equally weighted.

The Russell 1000® Growth Index measures the performance of the large cap growth segment of the US equity universe. It includes those Russell 1000® companies with higher price-to-book ratios and higher forecasted growth values. The Russell 1000® Growth Index is constructed to provide a comprehensive and unbiased barometer for the large-cap growth segment.
