

Fund Overview

The WisdomTree U.S. Value Fund seeks income and capital appreciation by investing primarily in U.S. equity securities that provide a high total shareholder yield with favorable relative quality characteristics.

Why WTV?

- Gain exposure to U.S. stocks with a high total shareholder yield and favorable quality attributes.
- Use to complement or replace traditional value oriented investment strategies that focus exclusively on total shareholder yield.
- A disciplined model-based process focused on a long-term approach to investing.

Performance of less than one year is cumulative. You cannot invest directly in an index.
Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at wisdomtree.com/investments.
WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Total Returns are calculated using the daily 4:00pm EST net asset value (NAV). Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times.
