

Fund Overview

The WisdomTree International Multifactor Fund seeks capital appreciation.

Why DWMF?

- Gain targeted multifactor exposure to developed international market stocks
- Use to strategically seek alpha and help reduce risk as a core holding over longer time horizons
- Use to help lower cost of active managers through systematic factor exposures

All Data As of 03/31/2024

Performance of less than one year is cumulative. You cannot invest directly in an index.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at [wisdomtree.com/investments](http://wisdomtree.com/investments).

WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Total Returns are calculated using the daily 4:00pm EST net asset value (NAV). Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times.

Fund Dividend Distribution and Capital Gains

Year	Income	Short-term Capital Gains	Long-term Capital Gains	Return of Capital	Year-End NAV
2024	0.11	0.00	0.00	0.00	N/A

Currency Hedge Ratios

Currency	Weight
AGGREGATE	79.00%
NOK	100.65%
SEK	90.56%
JPY	86.25%
GBP	86.16%
AUD	85.54%
NZD	85.07%
CHF	80.85%
DKK	75.86%
EUR	72.31%
SGD	63.55%

Hedge Ratio represents the specified percentage of currency exposure being hedged. Hedge ratios are implemented after the close of trading on the last business day of each month.

### Disclosures

Investors should carefully consider the investment objectives, risks, charges and expenses of the Fund before investing. For a prospectus or, if available, the summary prospectus containing this and other important information about the fund, call 866.909.9473 or visit [WisdomTree.com/investments](https://www.WisdomTree.com/investments). Read the prospectus or, if available, the summary prospectus carefully before investing.

Investing involves risk including possible loss of principal. Investments in non-U.S. securities involve political, regulatory, and economic risks that may not be present in U.S. securities. For example, foreign securities may be subject to risk of loss due to foreign currency fluctuations, political or economic instability, or geographic events that adversely impact issuers of foreign securities. Derivatives used by the Fund to offset exposure to foreign currencies may not perform as intended. There can be no assurance that the Fund's hedging transactions will be effective. The value of an investment in the Fund could be significantly and negatively impacted if foreign currencies appreciate at the same time that the value of the Fund's equity holdings falls. While the Fund is actively managed, the Fund's investment process is expected to be heavily dependent on quantitative models and the models may not perform as intended. Please read the Fund's prospectus for specific details regarding the Fund's risk profiles.

The MSCI EAFE Local Currency Index is a free float-adjust market capitalization weighted index that is designed to measure developed market equity performance, excluding the U.S. and Canada, calculated in local currency.

The MSCI EAFE Index is a market cap-weighted index composed of companies representative of the developed market structure of developed countries in Europe, Australasia and Japan.

**MSCI:** Neither MSCI nor any other party involved in or related to compiling, computing or creating the MSCI data makes any express or implied warranties or representations with respect to such data (or the results to be obtained by the use thereof), and all such parties hereby expressly disclaim all warranties of originality, accuracy, completeness, merchantability or fitness for a particular purpose with respect to any such data. Without limiting any of the foregoing, in no event shall MSCI, any of its affiliates or any third party involved in or related to compiling, computing or creating the data have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits), even if notified of the possibility of such.

**Standard Deviation:** Measure of how widely an investment or investment strategy's returns move relative to its average returns for an observed period. A higher value implies more "risk", in that there is more of a chance the actual return observed is farther away from the average return. **Value Factor:** WisdomTree's Value Factor incorporates fundamental metrics such as sales-to-price, book-to-price, earnings-to-price, estimated earnings-to-price, EBITDA-to-enterprise value, and operating cash flow-to-price. **Quality Factor:** WisdomTree's Quality Factor incorporates both the static observations and trends of return on equity, return on assets, gross profits over assets, and cash flow over assets. **Momentum Factor:** WisdomTree's Momentum Factor incorporates the risk-adjusted total returns over historical periods (6 and 12 months). **Correlation Factor:** WisdomTree's Correlation Factor incorporates diversification potential of stocks that are less correlated to the market. **"Good":** Represents the highest ranked one-third of the total market cap of the index for a specific factor, as ranked by WisdomTree's methodology. **"Ok":** Represents the next ranked one-third of the total market cap of the index for a specific factor, as ranked by WisdomTree's methodology. **"Bad":** Represents the lowest ranked one-third of the total market cap of the index for a specific factor, as ranked by WisdomTree's methodology.
