

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at [wisdomtree.com](http://wisdomtree.com).

WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Total Returns are calculated using the daily 4:00 p.m. EST net asset value (NAV). Market price ("Price") returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price ("Price") returns do not represent the returns you would receive if you traded shares at other times.
