14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ► A 2-for-1 share split of the WisdomTree U.S. Total Dividend Fund (the "Fund") occurred after the close of trading on December 22, 2021 for shareholders of record as of the close of markets on December 20, 2021. The Fund's shares began trading at their post-split price on December 23, 2021. See share split announcement attached.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ► The 2-for-1 share split was a non-taxable transaction. After the close of trading December 22, 2021, the Fund shareholders of record received 2 shares of the Fund for every 1 share owned before the share split. 16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ► The pre-split basis per share should be multiplied by 1/2 (i.e., one half) to determine the post-split basis per share.

WisdomTree Announces ETF Share Splits

New York, NY – (GlobeNewswire) – December 9, 2021 – WisdomTree (NASDAQ: WETF), an exchange-traded product (“ETP”) sponsor and asset manager, today announced forward share splits on the WisdomTree U.S. Total Dividend Fund (DTD) and the WisdomTree U.S. LargeCap Dividend Fund (DLN). Forward splits increase the number of shares outstanding and decrease the price per share. The splits will not change the total value of a shareholder’s investment.

The stock splits will apply to shareholders of record as of the close of the markets on December 20, 2021, payable after the close of the markets on December 22, 2021. Shares will trade at their post-split price on December 23, 2021.

Ticker	Fund Name	NAV per Share (as of 12/8/2021)	Split Ratio
DTD	WisdomTree U.S. Total Dividend Fund	\$125.96	2:1
DLN	WisdomTree U.S. LargeCap Dividend Fund	\$128.14	2:1

The following table illustrates the effect of a hypothetical 2-for-1 forward share split:

Period	Number of Shares Owned	Hypothetical Price per Share	Total Value of Shares
Pre-Split	100	\$100.00	\$10,000
Post-Split	200	\$50.00	\$10,000

The WisdomTree Capital Markets team is continually evaluating the suite of WisdomTree funds for potential operational or other changes that seek to benefit investors, with particular focus on ETF trading.

Anita Rausch, WisdomTree Head of Capital Markets, said, “As the share prices of DTD and DLN have increased since their inception in 2006, we believe splitting the funds’ price 2:1 has the potential to result in tighter bid/ask spreads for the benefit of all investors. Furthermore, the lower price point of the funds allow for a smaller minimum investment, as well as further ease when rebalancing ETF portfolios, among other potential benefits.”

There are risks associated with investing, including the possible loss of principal. Funds focusing their investments on certain sectors increase their vulnerability to any single economic or regulatory development related to such sector. This may result in greater share price volatility. Please read the Fund’s prospectus for specific details regarding the Fund’s risk profile.

Bid/Ask Spread: This is essentially the difference in price between the highest price that a buyer is willing to pay for an asset and the lowest price for which a seller is willing to sell it.
