You could lose money by investing in the Money Market Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's adviser is not required to reimburse the Fund for losses, and you should not expect that the adviser will provide financial support to the Fund at any time, including during periods of market stress.

Funds focusing on a single country, sector and/or funds that emphasize investments in smaller companies may experience greater price volatility. Investments in emerging markets, currency, fixed income and alternative investments include additional risks. Due to the investment strategy of certain Fund's they may make higher capital gain distributions than other funds. Please see prospectus for discussion of risks.
