Changes to the Index tracked by the Fund

We are writing to you in your capacity as shareholder in the Fund to advise you of a change to the index tracked by the Fund (the "**Index Switch**").

Effective from 10 April 2025 (the "**Effective Date**"), the Index Switch is as follows:

Current Index	CenterSquare New Economy Real Estate UCITS Index
New Index	WisdomTree New Economy Real Estate UCITS Index

The Index Switch will not affect the manner in which your investment is managed and you are not required to take any action as a result of this notification.

The Index Switch does not significantly alter the asset type, credit quality, borrowing or leverage limits or risk profile of the Fund. The current investment objective of the Fund will remain unchanged and the Index Switch will not result in a material change to the investment policy of the Fund.

Change to the Index Methodology

The Supplement will be amended to reflect the resulting changes in the index name, the index provider, and index methodology of the New Index.

The section "Index Description" in the Supplement will be amended from the Effective Date as follows:

1. Index Methodology Revision: The New Index will focus on companies from developed markets involved in "new economy real estate" activities, with a clearer categorization into "Digital and Industrial Economy Infrastructure" (90% target weight) and "Next-generation digital infrastructure" (10% target weight).
2. Selection Criteria Update: The minimum 90-day average daily dollar trading volume requirement has been reduced from $4 million to $1 million, and a minimum of 50 companies will be included in the New Index.
3. Weighting Approach Change: The previous technology score-based weighting system has been replaced with a modified market capitalization approach that maintains category allocations of 90% and 10% as mentioned above.

The amendments to the Supplement shall become effective on the Effective Date.
