

WisdomTree ETF Quarterly Dividend Yield Report

As of December 31, 2008

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at www.wisdomtree.com.

As of 2009, all WisdomTree Equity ETFs make quarterly dividend distributions.

WisdomTree ETF Quarterly Dividend Yield Report

As of December 31, 2008

The Fund Distribution Yield is the annual yield a Fund investor would receive in distributions if the most recent Fund distribution stayed consistent going forward. It is calculated by annualizing the most recent Fund distribution and dividing by the current Fund NAV. The yield represents a single distribution from the Fund and does not represent the total returns of the Fund.

The SEC Standardized Yield is a standard yield calculation developed and required by the Securities and Exchange Commission (SEC). It is based on the most recent 30-day period covered by the Fund's filings with the SEC. The yield figure reflects the dividends and interest earned during the period, after the deduction of the Fund's expenses. This is also referred to as the "Standardized Yield."

There are risks associated with investing including possible loss of principal. In addition to the normal risks of investing, foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus its investments in one country increase the impact of events and developments associated with the region which can adversely affect performance. Funds focusing on a single country, sector and/or smaller companies generally experience greater price volatility. Investments in emerging or frontier markets are generally less liquid and less efficient than developed markets. Investments in currency involve additional special risks, such as credit risk, interest rate fluctuations, derivative investment risk and the effect of varied economic conditions. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting issuers. Unlike typical exchange-traded Funds, there are no indexes that the currency Funds attempt to track or replicate. Thus, the ability of the currency Funds to achieve its objectives will depend on the effectiveness of the portfolio manager. Please read the Funds prospectus for specific details regarding the Fund's risk profile.

This information must be preceded or accompanied by a prospectus [click here to view or download prospectus](#). We advise you to consider the fund's objectives, risks, charges and expenses carefully before investing. The prospectus contains this and other important information about the fund. Please read the prospectus carefully before you invest.

WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Total Returns are calculated using the daily 4:00pm net asset value (NAV). Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times.

ALPS Distributors, Inc. is not affiliated with the Dreyfus Corporation, sub-advisor for the Fund, or BNY Mellon.

* As of January 20, 2009, the WisdomTree "High-Yielding Equity" Funds will have been renamed to "Equity Income" Funds.

** Performance less than one year is cumulative.
