

DGRW

WisdomTree U.S. Quality Dividend Growth Fund

DGRW targets high quality U.S. companies that can grow their dividends over time.

DGRW focuses on Return on Equity (ROE), Return on Assets (ROA), sales and earnings growth to identify strong companies. These businesses have the potential to rapidly grow their dividends.

DGRW Offers the Potential To:

EVALUATE

core fundamentals to identify dividend growers

REWARD

firms with clean balance sheets, low leverage & strong earnings growth

PROVIDE

valuation discipline and quality with fundamental weighting

Why DGRW Now?

- + A Quality Resurgence: The S&P 500 High Quality Index lagged the S&P 500 in 2025. We think 2026 is different.
- + Provides valuation discipline when market valuations are stretched.
- + DGRW has held up well in some of the market's notorious downdrafts of recent years, including the COVID-19 crash and the 2022 bear market.

DGRW in a Portfolio:

- + Core large-cap holding with broad exposure to profitable dividend growers
- + Provides an income supplement to dividend agnostic U.S. large cap allocations
- + Replaces large-cap allocations without a quality tilt

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at wisdomtree.com/investments.

WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Total returns are calculated using the daily 4:00pm EST net asset (NAV). Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times.
