

HYIN

WisdomTree Private Credit & Alternative Income Fund

HYIN is designed to provide targeted exposure to the high-income alternative credit investment market, providing access to the much sought after private credit space.

Alternative credit provides diversification beyond traditional fixed income, potentially enhancing portfolio returns. HYIN offers access to the unique income opportunities from private credit and other non-traditional sources. Additionally, it can offer higher yield potential in different market environments compared to conventional bonds.

HYIN Offers the Potential To:

ACCESS TO PRIVATE CREDIT

through a diversified solution utilizing broader alternative credit class

HIGH INCOME POTENTIAL

with potentially less sensitivity to interest rate changes

EFFICIENT STRUCTURE

previously accessible to institutions and high net worth only, now available as an ETF

Why HYIN Now?

- + HYIN is a collaboration between WisdomTree and Gapstow Capital Partners, an industry leader in the private and alternative credit space
- + HYIN was introduced in May 2021, positioning the fund as one of the earliest ETF solutions for private/alternative credit

HYIN in a Portfolio:

- + Alternative credit may be used as a powerful tool with advantages of potentially higher yields, diversification for portfolios and lower sensitivity to interest rates
- + HYIN represents a compelling alternative for investors seeking income and total returns versus traditional investments

Prior to July 18, 2025, the Fund was known as the WisdomTree Alternative Income Fund. The Gapstow Private Credit and Alternative Income Index was formerly known as the Gapstow Liquid Alternative Credit Index.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at wisdomtree.com/investments.

WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Total returns are calculated using the daily 4:00pm EST net asset (NAV). Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times.

Investors should carefully consider the investment objectives, risks, charges and expenses of the Fund before investing. For a prospectus or, if available, the summary prospectus containing this and other important information about the fund, call 866.909.9473 or visit WisdomTree.com/investments. Read the prospectus or, if available, the summary prospectus carefully before investing.

There are risks associated with investing, including the possible loss of principal. The Fund invests in alternative credit sectors through investments in underlying closedend investment companies ("CEFs"), including those that have elected to be regulated as business development companies ("BDCs"), and real estate investment trusts ("REITs"). The value of a CEF can decrease due to movements in the overall financial markets. BDCs generally invest in less mature private companies, which involve greater risk than well-established, publicly traded companies and are subject to high failure rates among the companies in which they invest. By investing in REITs, the Fund is exposed to the risks of owning real estate, such as decreases in real estate values, overbuilding, increased competition and other risks related to local or general economic conditions. The Fund invests in the securities included in, or representative of, its Index regardless of their investment merit, and the Fund does not attempt to outperform its Index or take defensive positions in declining markets. Please read the Fund's prospectus for specific details regarding the Fund's risk profile.

Diversification does not eliminate the risk of experiencing investment losses.
