

WQTM WisdomTree Quantum Computing Fund

The next wave of transformative computing technologies is quantum. While the concept has been theorized and written about for over a half century, we are now seeing it become a reality. Quantum computing has the potential to solve problems that are impractical or impossible for even the most powerful traditional computers, with applications spanning optimization, cybersecurity, materials science, and healthcare.

WQTM allows investors to access this rapidly developing technology through a pure play portfolio of quantum firms. While still in the early stages, quantum computing is becoming a necessity for governments, corporations, and research institutions, creating a compelling opportunity for investors who are seeking exposure to this cutting-edge theme.

WQTM Offers the Potential To:

CAPITALIZE

on where the U.S. government is putting capital to work: in quantum computing leaders

PARTICIPATE

in the nascent quantum computing revolution across large and small corporations

DIVERSIFY

from megacap technology names with the next generation of innovators, transformers, and disruptors

Why WQTM Now?

- + Benefit from growing institutional support as the U.S. government invests directly in quantum computing companies, reinforcing the sector's long-term growth potential.
- + Invest in the next computing paradigm by gaining exposure to companies whose business models are focused on quantum technologies.
- + Capture innovation beyond AI with access to companies that could drive the next technological breakthrough and are held in WQTM.
- + Gain Pure-Play Thematic Access through a screening process that measures how extensively each company focuses on quantum computing within its business model.

WQTM in a Portfolio:

- + A thematic satellite position within a core equity portfolio
- + Pure-play access to an innovative technology
- + Long-term growth exposure that may still be in early stages

WQTM Quick Facts:

WisdomTree Fund/Benchmark	Ticker	Exp. Ratio	Inception Date	Average Annual Total Returns as of 3/31/26				
				1-Yr.	3-Yr.	5-Yr.	10-Yr.	Since Fund Inception
WisdomTree Quantum Computing Fund (NAV)	WQTM	0.45%	10/09/2025	N/A	N/A	N/A	N/A	-17.86%
WisdomTree Quantum Computing Fund (Price)				N/A	N/A	N/A	N/A	-17.22%
WisdomTree Classiq Quantum Computing Index				N/A	N/A	N/A	N/A	-17.78%
MSCI AC World Index				N/A	N/A	N/A	N/A	-1.17%

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at wisdomtree.com/investments.

WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Total returns are calculated using the daily 4:00pm EST net asset (NAV). Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times.

You cannot invest directly in an index.

Investors should carefully consider the investment objectives, risks, charges and expenses of the Fund before investing. For a prospectus or, if available, the summary prospectus containing this and other important information about the fund, call 866.909.9473 or visit WisdomTree.com/investments. Read the prospectus or, if available, the summary prospectus carefully before investing.

There are risks associated with investing, including potential loss of principal. To the extent the Fund invests a significant portion of its assets in the securities of companies of a single country or region, it is more likely to be impacted by events or conditions affecting that country or region. The economic, political, regulatory, and other events and conditions that affect issuers and investments in the United States differ significantly from those associated with other countries and regions. U.S. financial markets have become increasingly globalized becoming more integrated with financial markets around the world and as a result, U.S. financial markets are increasingly vulnerable to the risks that may affect non-U.S. financial markets. The Fund's investments in the U.S. are subject to the risk that they, and the U.S. economy more generally, will be adversely affected by a decrease in imports or exports, changes in trade regulations, inflation, and/or an economic recession in the U.S. The Fund invests primarily in the securities of quantum computing companies. Companies engaged in the development of quantum computing or machine learning technology may be significantly impacted by rapid technological advancements, product obsolescence, intense competition, consumer demand, and government regulation. Such companies are also heavily dependent upon patent and intellectual property rights. The Fund invests in the securities included in, or representative of, its Index regardless of their investment merit and the Fund does not attempt to outperform its Index. The composition of the Index is governed by an Index Committee and the Index may not perform as intended. Please read the Fund's prospectus for specific details regarding the Fund's risk profile.
