## Europe Hedged Equity Fund

# HEDJ

### Fund Overview

The WisdomTree Europe Hedged Equity Fund seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Europe Hedged Equity Index.

### Why HEDJ?

- Gain exposure to broad Eurozone equity from dividend paying companies with an exporter tilt
- Currency hedge mitigates exposure to fluctuations of the euro
- Use to maintain Eurozone equity exposure while neutralizing currency movements of the euro relative to the U.S. dollar

Performance of less than one year is cumulative. You cannot invest directly in an index.

**Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at [wisdomtree.com/investments](http://wisdomtree.com/investments).**

WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Total Returns are calculated using the daily 4:00pm EST net asset value (NAV). Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times.

There are risks associated with investing, including possible loss of principal. Foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. This Fund focuses its investments in Europe, thereby increasing the impact of events and developments associated with the region which can adversely affect performance. Derivative investments can be volatile and these investments may be less liquid than other securities, and more sensitive to the effect of varied economic conditions. As this Fund can have a high concentration in some issuers, the Fund can be adversely impacted by changes affecting those issuers. Due to the investment strategy of this Fund it may make higher capital gain distributions than other ETFs. Dividends are not guaranteed, and a company currently paying dividends may cease paying dividends at any time. The Fund invests in the securities included in, or representative of, its Index regardless of their investment merit, and the Fund does not attempt to outperform its Index. Please read the Fund's prospectus for specific details regarding the Fund's risk profile.

The MSCI EAFE Local Currency Index is a free float-adjust market capitalization weighted index that is designed to measure developed market equity performance, excluding the U.S. and Canada, calculated in local currency.

The MSCI EMU Local Currency Index captures large and mid cap representation across the Developed Markets countries in the EMU and provides local currency returns, which are not converted to U.S. dollars.

The WisdomTree Europe Hedged Equity Index is designed to provide exposure to European equities while at the same time neutralizing exposure to fluctuations between the Euro and the U.S. dollar.

The WisdomTree DEFA International Hedged Equity Index is a dividend weighted index designed to provide exposure to developed world, non-U.S. equity securities while at the same time neutralizing exposure to fluctuations between the value of the U.S. dollar and non-U.S. currencies reflected in the index.
