

All Data As of 03/31/2026

Fund Overview

The WisdomTree India Hedged Equity Fund seeks to provide exposure to the Indian equity market while hedging exposure to fluctuations between the U.S. dollar and the Indian Rupee.

Why INDH?

- Gain broad equity exposure to Indian companies
- Currency Hedge mitigates exposure to fluctuations of the Indian Rupee
- Use to maintain Indian equity exposure while neutralizing currency fluctuations of the Indian Rupee relative to the U.S. Dollar

Performance of less than one year is cumulative. You cannot invest directly in an index.

Performance is historical and does not guarantee future results. Current performance may be lower or higher than quoted. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the most recent month-end is available at wisdomtree.com/investments.

WisdomTree shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Total Returns are calculated using the daily 4:00pm EST net asset value (NAV). Market price returns reflect the midpoint of the bid/ask spread as of the close of trading on the exchange where Fund shares are listed. Market price returns do not represent the returns you would receive if you traded shares at other times.

Disclosures

Investors should carefully consider the investment objectives, risks, charges and expenses of the Fund before investing. For a prospectus or, if available, the summary prospectus containing this and other important information about the fund, call 866.909.9473 or visit WisdomTree.com/investments. Read the prospectus or, if available, the summary prospectus carefully before investing.

MSCI: Neither MSCI nor any other party involved in or related to compiling, computing or creating the MSCI data makes any express or implied warranties or representations with respect to such data (or the results to be obtained by the use thereof), and all such parties hereby expressly disclaim all warranties of originality, accuracy, completeness, merchantability or fitness for a particular purpose with respect to any such data. Without limiting any of the foregoing, in no event shall MSCI, any of its affiliates or any third party involved in or related to compiling, computing or creating the data have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits), even if notified of the possibility of such.

There are risks associated with investing including possible loss of principal. Foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. This Fund focuses its investments in India, thereby increasing the impact of events and developments associated with the region that can adversely affect performance. Investments in emerging, offshore or frontier markets such as India are generally less liquid and less efficient than developed markets and are subject to additional risks, such as adverse governmental regulation and intervention or political developments. Derivative investments can be volatile and these investments may be less liquid than other securities, and more sensitive to the effect of varied economic conditions. The Fund invests in the securities included in, or representative of, its Index regardless of its investment merit and the Fund does not attempt to outperform its Index. The composition of the Index is governed by an Index Committee and the Index may not perform as intended. Please read the Fund's prospectus for specific details regarding the Fund's risk profile.

The MSCI India Local Currency Index is a free float-adjusted market capitalization index that is designed to measure the performance of the large and mid cap segments of the Indian equity market and is calculated in local currency.

The WisdomTree India Hedged Equity Index is market-capitalization Index that includes the 75 largest companies in India. The index is designed to remove from index performance the impact of changes to the value of the Indian Rupee relative to the U.S. Dollar.
