ESG Core Products

The integration of ESG into our product line-up represents an exciting development for WisdomTree. We believe that combining our Modern Alpha® investment approach with ESG enables investors to build a portfolio that aligns with both their investment objectives and personal values.

We leverage ESG ratings and controversy metrics from a variety of industry-leading data providers in order to ensure that the amalgamated ESG metrics we rely on are as unbiased and robust as possible.

In the U.S., our ESG equity products will start with our multifactor investment approach, which selects securities based on two fundamental factors – value and quality – and two technical factors – momentum and correlation. In addition to these financial factors, our ESG products add in a fifth factor – sustainability. We then assign a modified market cap weighting to each security that takes into account both the market capitalization and the sustainability score of the security.

Thematic Products Incorporating Aspects of ESG

WisdomTree offers a suite of three governance-oriented products that seek to invest in emerging market companies that are not state-owned. The investment thesis for these products is grounded in the belief that strong corporate governance is critical to a stock’s performance and that government-owned companies can, at times, run their businesses with a broader set of political interests than traditional firms.

Proxy Voting

Through proxy voting, WisdomTree advocates for strong corporate governance in the companies in which our products invest. We rely on the proxy voting guidelines of our sub-advisors to inform how we vote and we have therefore selected sub-advisors whose proxy voting guidelines align with our commitment to responsible and sustainable business practices. Rather than adopting ESG guidelines for a select number of ESG-mandated products, the proxy voting guidelines used by our largest sub-advisor apply an ESG lens to all proxies based on our shared belief that sustainable companies make for better long-term investments. Our sub-advisors regularly engage with management at the companies held by our products to push for action on key ESG issues, such as reporting on carbon emissions and increasing gender diversity.

2. Employee Code of Conduct

Introduction

WisdomTree is committed to basic human rights and we conduct our business in accordance with all national and international standards. The Board of Directors (the "Board") of WisdomTree Investments, Inc. 3. Promote compliance with applicable governmental laws, rules and regulations;
4. Deter wrongdoing; and
5. Require prompt internal reporting of breaches of, and accountability for adherence to, this Code.

This Code is not intended to reduce or limit the many other obligations that employees may have to WisdomTree. Instead, the standards in this Code should be viewed as the minimum standards that WisdomTree expects from its directors, officers and employees in the conduct of WisdomTree’s business. Disciplinary measures for violations of the Code may include, but are not limited to, counseling, oral or written reprimands, warnings, probation or suspension with or without pay, demotions, reductions in salary, termination of employment or service and restitution.

Honest, Ethical, and Fair Conduct

Each employee owes a duty to WisdomTree to act with integrity. Integrity requires, among other things, being honest, fair and candid. Deceit, dishonesty and subordination of principle are inconsistent with integrity. Service to WisdomTree never should be subordinated to personal gain and advantage.

2. Observe all applicable governmental laws, rules and regulations;

2. Employee Code of Conduct (continued)

Disclosure

WisdomTree strives to ensure that the contents and disclosures in the reports, documents, and communications that WisdomTree files with the SEC are full, fair, accurate, timely and understandable in accordance with applicable disclosure standards, including standards of materiality, where appropriate. Each employee must:

1. Not knowingly misrepresent, or cause others to misrepresent, facts about WisdomTree to others, whether within or outside WisdomTree, including to WisdomTree’s independent auditors, governmental regulators, self-regulating organizations and other governmental officials, as appropriate; and

2. In relation to his or her area of responsibility, properly review and critically analyze proposed disclosure for accuracy and completeness.

In addition to the foregoing, the Company’s Chief Executive Officer, the Chief Financial Officer and each other person that is typically involved in the financial reporting for WisdomTree must familiarize himself or herself with the disclosure requirements applicable to WisdomTree as well as the business and financial operations of WisdomTree.

The integrity, reliability and accuracy in all material respects of WisdomTree’s books, records and financial statements is fundamental to WisdomTree’s continued and future business success. No director, officer or employee may cause WisdomTree to enter into a transaction with the intent to document or record it in a deceptive or unlawful manner. In addition, no director, officer or employee may create any false or artificial documentation or book entry for any transaction entered into by WisdomTree. Similarly, officers and employees who have responsibility for accounting and financial reporting matters have a responsibility to accurately record all funds, assets and transactions on WisdomTree’s books and records.

As part of WisdomTree’s Whistleblower Policy, all employees and service providers must promptly bring to the attention of the Chair of the Audit Committee of WisdomTree's Board of Directors any information he or she may have concerning:

Any person who becomes aware of any existing or potential breach of this Code is required to notify the Chair of the Audit Committee promptly. Failure to do so is itself a breach of this Code.

Specifically, each employee must:

1. Notify the Chair of the Audit Committee promptly of any existing or potential violation of this Code.
2. Not retaliate against any other employee for reports of potential violations that are made in good faith.

WisdomTree will follow the following procedures in investigating and enforcing this Code and in reporting on the Code:

1. The Audit Committee will take all appropriate action to investigate any breaches reported to it.
2. If the Audit Committee determines that a breach has occurred, it will inform the Board of Directors.
3. Upon being notified that a breach has occurred, the Board will take or authorize such disciplinary or preventive action as it deems appropriate, after consultation with the Audit Committee and Chief Legal Officer, up to and including dismissal or, in the event of criminal or other serious violations of law, notification of the SEC or other appropriate law enforcement authorities.

No person following the above procedure shall, as a result of following such procedure, be subject by WisdomTree or any officer or employee thereof to discharge, demotion suspension, threat, harassment or, in any manner, discrimination against such person in terms and conditions of employment. Any person who participates in any such retaliation is subject to disciplinary action, including termination.
